This press release may contain forward-looking information based on current information and expectations of the Company that involve a number of risk, uncertainties, and assumptions. Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

Pasokan Gas PGN Terus Membaik, Industri Kembali Beroperasi

Jakarta – PT Perusahaan Gas Negara Tbk (PGN) terus memperkuat komitmennya dalam menjaga keandalan pasokan gas nasional melalui optimalisasi infrastruktur dan dukungan penuh dari pemerintah serta para pemangku kepentingan. Saat ini tekanan gas dalam jaringan pipa telah normal dan dijaga stabilitasnya. Seiring dengan stabilisasi tersebut, pelanggan di sejumlah wilayah Jawa Bagian Barat yang sebelumnya terdampak telah kembali beroperasi.

Corporate Secretary PGN Fajriyah Usman menyampaikan bahwa seluruh Direksi PGN secara aktif memantau perkembangan operasional di wilayah Jawa Bagian Barat dan sebagian Sumatera secara real-time melalui Integrated Monitoring Center yang berbasis digital di Jakarta. Pemantauan ini menjadi bagian dari upaya PGN dalam memastikan kelancaran distribusi gas. PGN juga terus konsisten melakukan langkah-langkah strategis untuk memastikan keandalan penyaluran energi bagi pelanggan.

"Alhamdulillah, kami bersyukur atas dukungan yang telah diberikan oleh Kementerian ESDM, SKK Migas, PT Pertamina (Persero), serta seluruh pemangku kepentingan. Tambahan pasokan gas saat ini telah membantu meningkatkan keandalan infrastruktur. Penyaluran kepada pelanggan akan dilakukan secara berkelanjutan. Kami sangat mengapresiasi kerja sama dan pengertian pelanggan dalam mengelola konsumsi gas, yang berperan penting dalam mendukung upaya stabilisasi sistem," ujar Fajriyah.

Ia menambahkan bahwa pemenuhan kebutuhan energi pelanggan tetap menjadi prioritas utama PGN. Dalam tahap ini, PGN terus memperkuat keandalan dan keamanan infrastruktur untuk memastikan penyaluran gas bumi berjalan optimal. Seluruh langkah mitigasi dilakukan sesuai dengan prosedur pengelolaan perusahaan yang baik serta memperhatikan aspek HSSE.

"PGN memahami bahwa energi adalah bagian dari fondasi utama produktivitas pelanggan. Karena itu, kami terus berkomitmen menjaga keandalan pasokan dan memperkuat infrastruktur gas, baik untuk kebutuhan jangka pendek maupun jangka panjang," tutup Fajriyah.

PGN Gas Supply Continues to Improve, Industry Resumes Operations

Jakarta – PT Perusahaan Gas Negara Tbk (PGN) continues to reinforce its commitment to maintaining reliable national gas supply through infrastructure optimization and with the full support of the government and key stakeholders. Gas pressure in the pipeline network has now returned to normal and stability is being maintained. With this progress, customers in several areas of West Java who were previously affected have resumed operations.

PGN's Corporate Secretary, Fajriyah Usman, stated that the entire Board of Directors is closely monitoring operational developments in West Java and parts of Sumatra in real-time through the Jakarta-based digital Integrated Monitoring Center. This monitoring forms part of PGN's continuous efforts to ensure smooth and reliable gas distribution.

"Alhamdulillah, we are grateful for the support extended by the Ministry of Energy and Mineral Resources, SKK Migas, PT Pertamina (Persero), and all stakeholders. The additional gas supply has strengthened infrastructure reliability, and deliveries to customers will continue on a sustainable basis. We sincerely appreciate the cooperation and understanding of our customers in managing gas consumption, which has played a vital role in supporting system stabilization," said Fajriyah.

She added that fulfilling customer energy needs remains PGN's highest priority. At this stage, PGN continues to enhance infrastructure reliability and safety to ensure the optimal delivery of natural gas. All mitigation measures are implemented in accordance with good corporate governance principles, while maintaining strict adherence to HSSE standards.

"PGN recognizes that energy is a cornerstone of customer productivity. Therefore, we remain fully committed to ensuring supply reliability and reinforcing gas infrastructure to meet both immediate and long-term requirements," Fajriyah concluded.
