This press release may contain forward-looking information based on current information and expectations of the Company that involve a number of risk, uncertainties, and assumptions. Among the factors that could cause the actual results to differ materially are industry conditions, prices of crude oil and gas, the Company's ability to obtain and the timing of new project, and changes in competitive factor. Should one or more of these risk or uncertainties materialize, or should the underlying assumption prove incorrect, actual outcomes could vary materially from those indicated

PGN Pastikan Pelanggan Industri Terlayani Optimal 100%

Jakarta – PT Perusahaan Gas Negara Tbk (PGN) selaku Subholding Gas Pertamina memastikan penyaluran gas bumi kepada pelanggan industri sepenuhnya normal, dengan pasokan 100%. Penguatan pasokan sudah dilakukan sejak pertengahan Agustus, sehingga tidak ada pemberlakuan pembatasan.

Corporate Secretary PGN, Fajriyah Usman, menyampaikan bahwa penguatan pasokan ini tidak terlepas dari dukungan penuh Pemerintah dalam tambahan pasokan termasuk gas swap Natuna dan optimalisasi pasokan gas dan LNG serta kerja sama berbagai pemangku kepentingan terkait. Sinergi tersebut menjadi landasan penting bagi PGN untuk memastikan keandalan pasokan dan pelayanan energi bersih bagi seluruh sektor pelanggan, terutama industri.

“PGN senantiasa berkomitmen mengupayakan pemenuhan kebutuhan energi gas bumi dengan optimal. Dengan kondisi penyaluran gas yang sudah normal, kami dapat semakin fokus mendukung kegiatan operasional pelanggan serta menjaga kontribusi gas bumi dalam menggerakkan pertumbuhan ekonomi nasional,” ujar Fajriyah.

PGN juga menyampaikan terima kasih dan mengapresiasi para pelanggan atas pengertian, komunikasi yang baik, koordinasi cepat, serta loyalitas dan kerja sama selama proses stabilisasi. Ke depan, PGN terus memperkuat infrastruktur dan layanan agar pasokan energi ramah lingkungan dapat terdistribusi dengan andal dan berkelanjutan. Upaya ini sejalan dengan komitmen PGN dalam mendukung transisi energi nasional serta pencapaian target Net Zero Emission (NZE) 2060.

PGN Ensures 100% Optimal Service for Industrial Customers

PT Perusahaan Gas Negara Tbk (PGN) as Pertamina Gas Subholding, assures that the supply of natural gas to industrial customers is fully normal, with 100% supply. Supply strengthening has been implemented since mid-August, so no restrictions are in place.

PGN Corporate Secretary, Fajriyah Usman, stated that this supply strengthening is inseparable from the full support of the Government in additional supplies, including the Natuna gas swap, optimization of gas and LNG supplies, and collaboration with various relevant stakeholders. This synergy is an important foundation for PGN to ensure the reliability of clean energy supply and services for all customer sectors, especially industry.

"PGN is always committed to optimizing the fulfillment of natural gas energy needs. With normal gas distribution conditions, we can focus even more on supporting our customers' operational activities and maintaining the contribution of natural gas in driving national economic growth," said Fajriyah.

PGN also expressed gratitude and appreciation to its customers for their understanding, good communication, quick coordination, as well as their loyalty and cooperation during the stabilization process. Going forward, PGN continues to strengthen its infrastructure and services so that environmentally friendly energy supplies can be distributed reliably and sustainably. This effort aligns with PGN's commitment to supporting the national energy transition and achieving the Net Zero Emission (NZE) target by 2060.
